Today's VoteTopic:

Do you know how to keep your information safe?

UNCRC Article 8:
Right to an
identity

UN SDG 16:
Peace, justice &
strong institutions

VfS Key Theme 7:
Crime, justice &
extremism

1 Getting personal

Pair activity (2-3 mins)

Talk to your partner and find out as much as you can about them using these ideas to help. Swap after one minute.

Favourite food

Birthday

Favourite song

Eye colour

Address

Pets

Best friend

1 Getting personal

You have just shared **personal information** with your partner.

Personal information:
Any **facts** that are **about you**.

2 Why are we talking about this?

Recently, lots of people have had their **money stolen** on the **internet**.

Some people have been **tricked** into **giving their money away**.

2 Why are we talking about this?

Some people online use the **internet** to **steal money** or **pretend to be other people**.

They are called **cyber criminals**.

Cyber criminal:
Someone who uses the **internet** to **break the law**.

2 Why are we talking about this?

Sometimes **cyber criminals** find people's **passwords** which helps them to **steal money** from people's **bank accounts**.

So, for this week's VoteTopic we're going to be deciding whether **you know how to keep your information safe**.

3 Cyber detectives

Remember – people **online** are **not always who they say they are**. This means we should be **very careful about what we share online**.

Tell a **trusted adult** or call **Childline** on **0800 1111** if you are **worried** about **information** that you have **seen** or **shared online**.

3 Cyber detectives

Cyber criminals can find out your **personal information** from things that you **post online**.

Whole class activity (4-6 mins)
On the next few slides, you will see some **examples** of people **sharing information online**. Using your **detective skills**, work out which **personal information** they have **shared** and **show your answer using one or two fingers**.

What has Max shared?

His address

His birthday

Max has shared his **full address**. Remember, not everyone on the internet is who they say they are.

HB21: ... jungle
you. Have you been great.
aying on here long?
You: About 7 months. You
castle looks cool! How
did you do the turrets?
HB21: I could show you if
you like? Where do you
live?
You: Thanks! 12 Oak
Street.
HB21: Cool, in Tipford?
You: Yep!

QUIZ

Find out which pup you are!

1. When is your birthday?

23rd April 2019

2. What is your favourite colour?

3. Do you like eating lots?

What has Selina shared?

Her eye colour

Her birthday

Some **quizzes** on the internet try to **trick you** into **sharing** your **personal information**.

3 Cyber detectives

What has Lily shared?

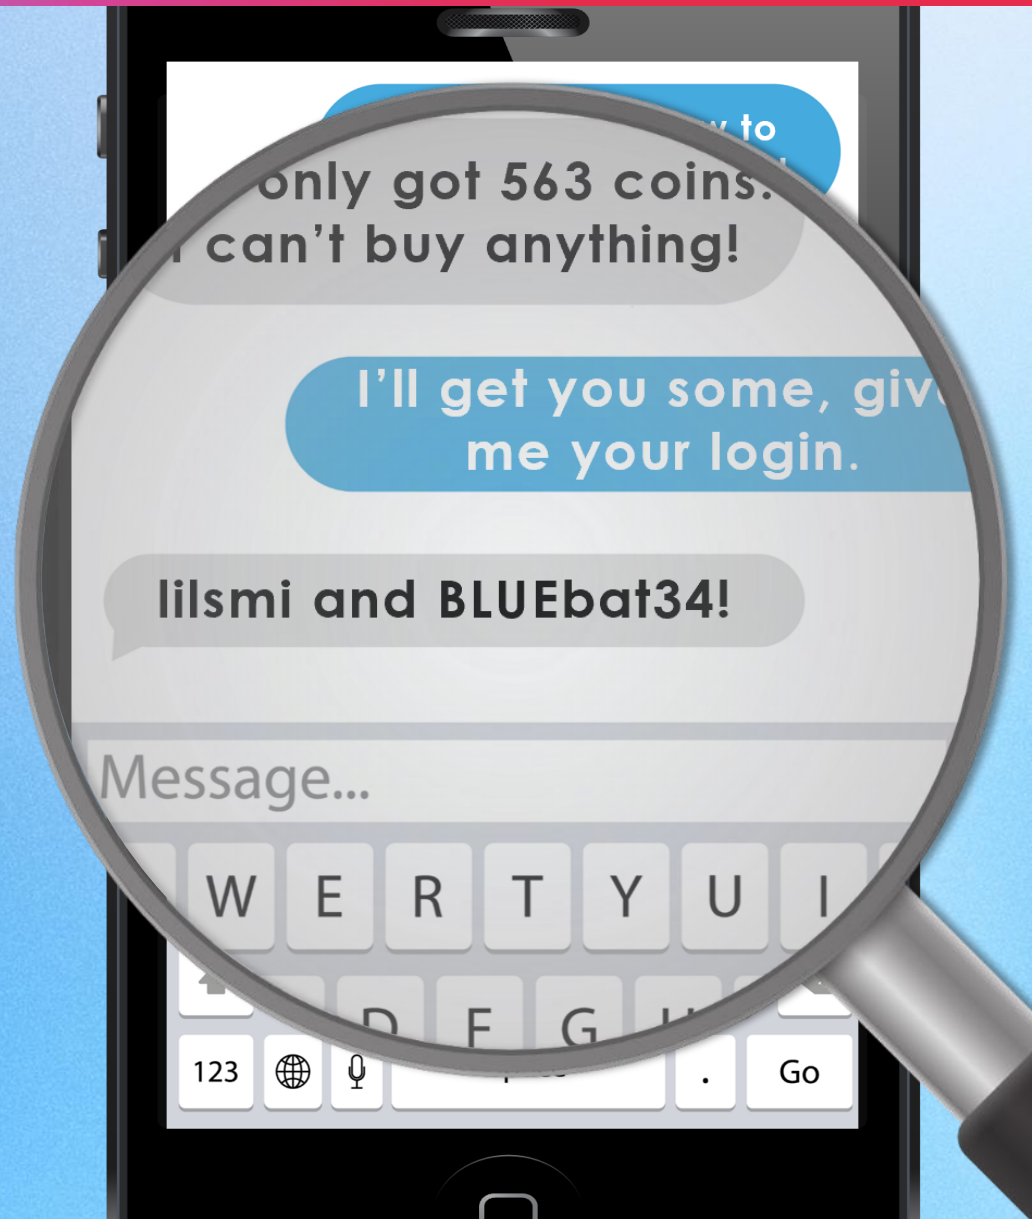

Her whole name

Her password

Sometimes **cyber criminals pretend to be someone you know online** to find out your **personal information**.

3 Cyber detectives

lewis.holmes
George Park

14 likes

lewis.holmes riding my brand-new bike at George Park near my house!

What has Lewis shared?

His full name

His address

Both!

Lewis's **username** is his **full name**, and he has **shared** that he is **at a park near his house**.

4 Forgotten your password?

As you grow older, you will need to get good at **making strong passwords**.

You should not use **personal information** in your **passwords**, as this is easy to find out!

			
Favourite food	Birthday	Favourite song	
			
Eye colour	Address	Pets	Best friend

4 Forgotten your password?

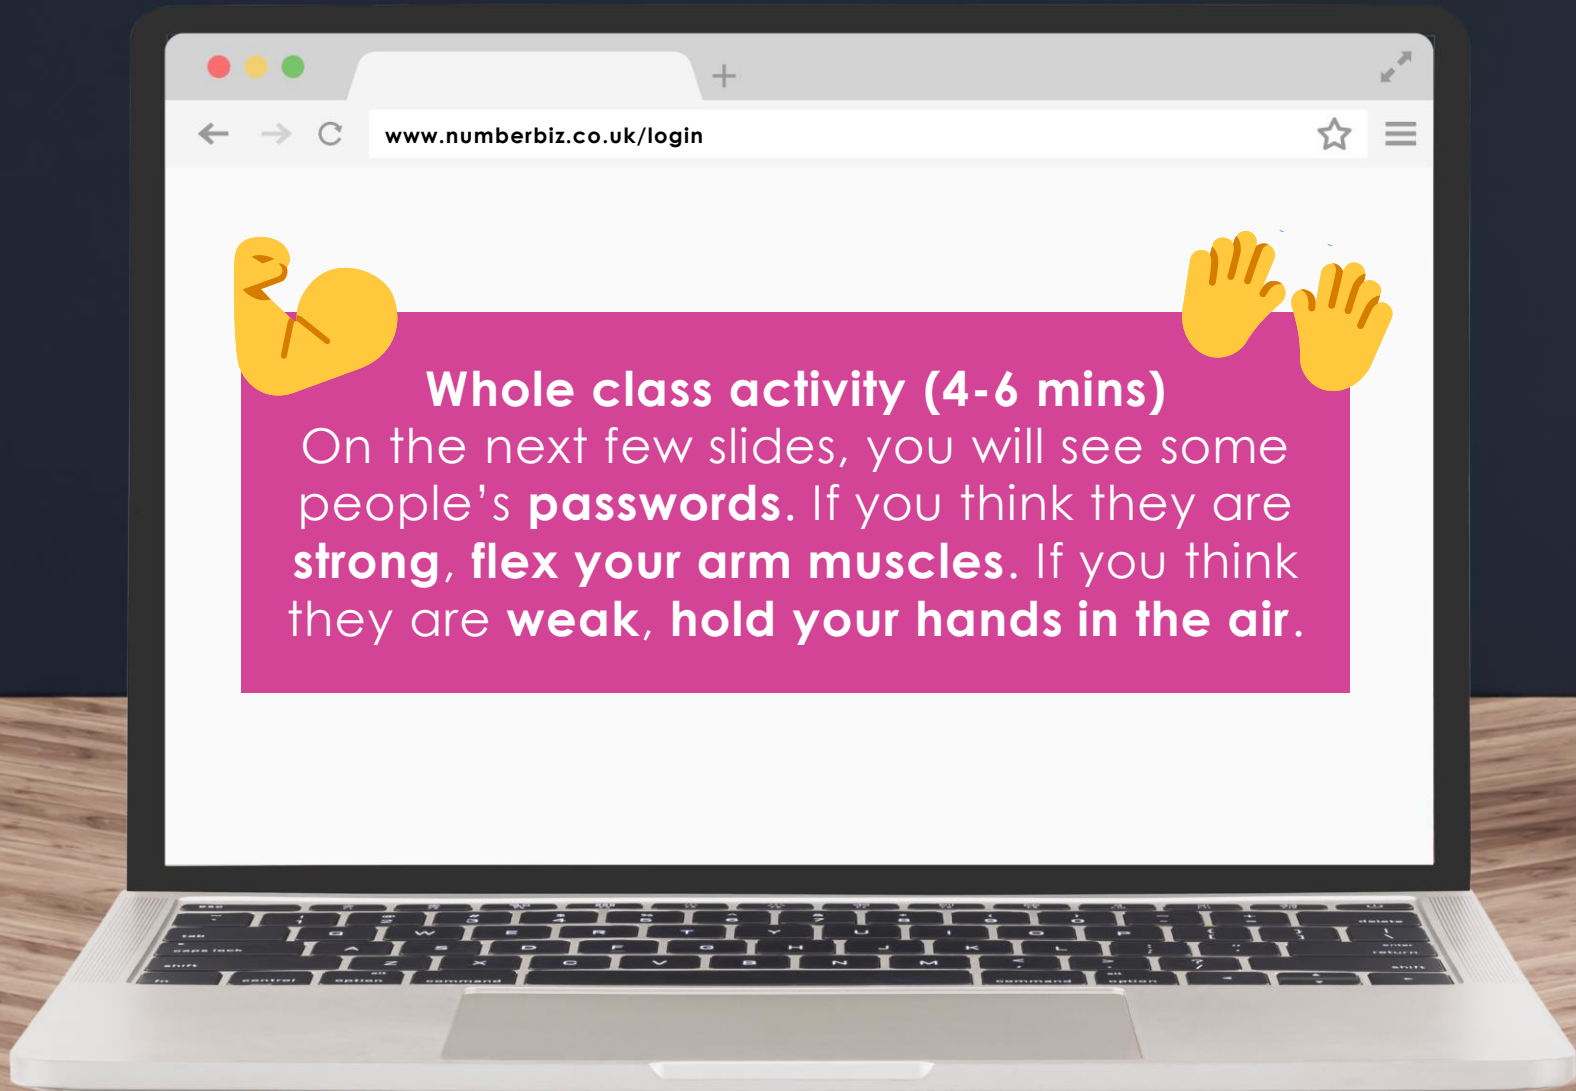

For a **strong password**, try to use all of these!

AbCDefG	!?	69310
Mixed letters	Symbols	Mixed numbers

For example, RedFoX24!

4 Forgotten your password?

Whole class activity (4-6 mins)

On the next few slides, you will see some people's **passwords**. If you think they are **strong**, flex your arm muscles. If you think they are **weak**, hold your hands in the air.

Challenge (1 min)
How could this password be made **stronger**?

Pair activity (4-6 mins)

Now we're going to think about the **future** and how you might be using **different parts of your body** as a **password** when you are older. On each slide, **talk to your partner** about the differences between us!

This is a **fingerprint**. Did you know that **every human fingerprint is different?**

This means that people can use their **fingerprints instead of a password** to log into their accounts.

People **cannot steal your fingerprints!**

Look at your fingerprints with your partner to see how they are different.

5 I've got the key

We don't just have **different eye colours**.

Every **eye** has **unique patterns** in it as well!

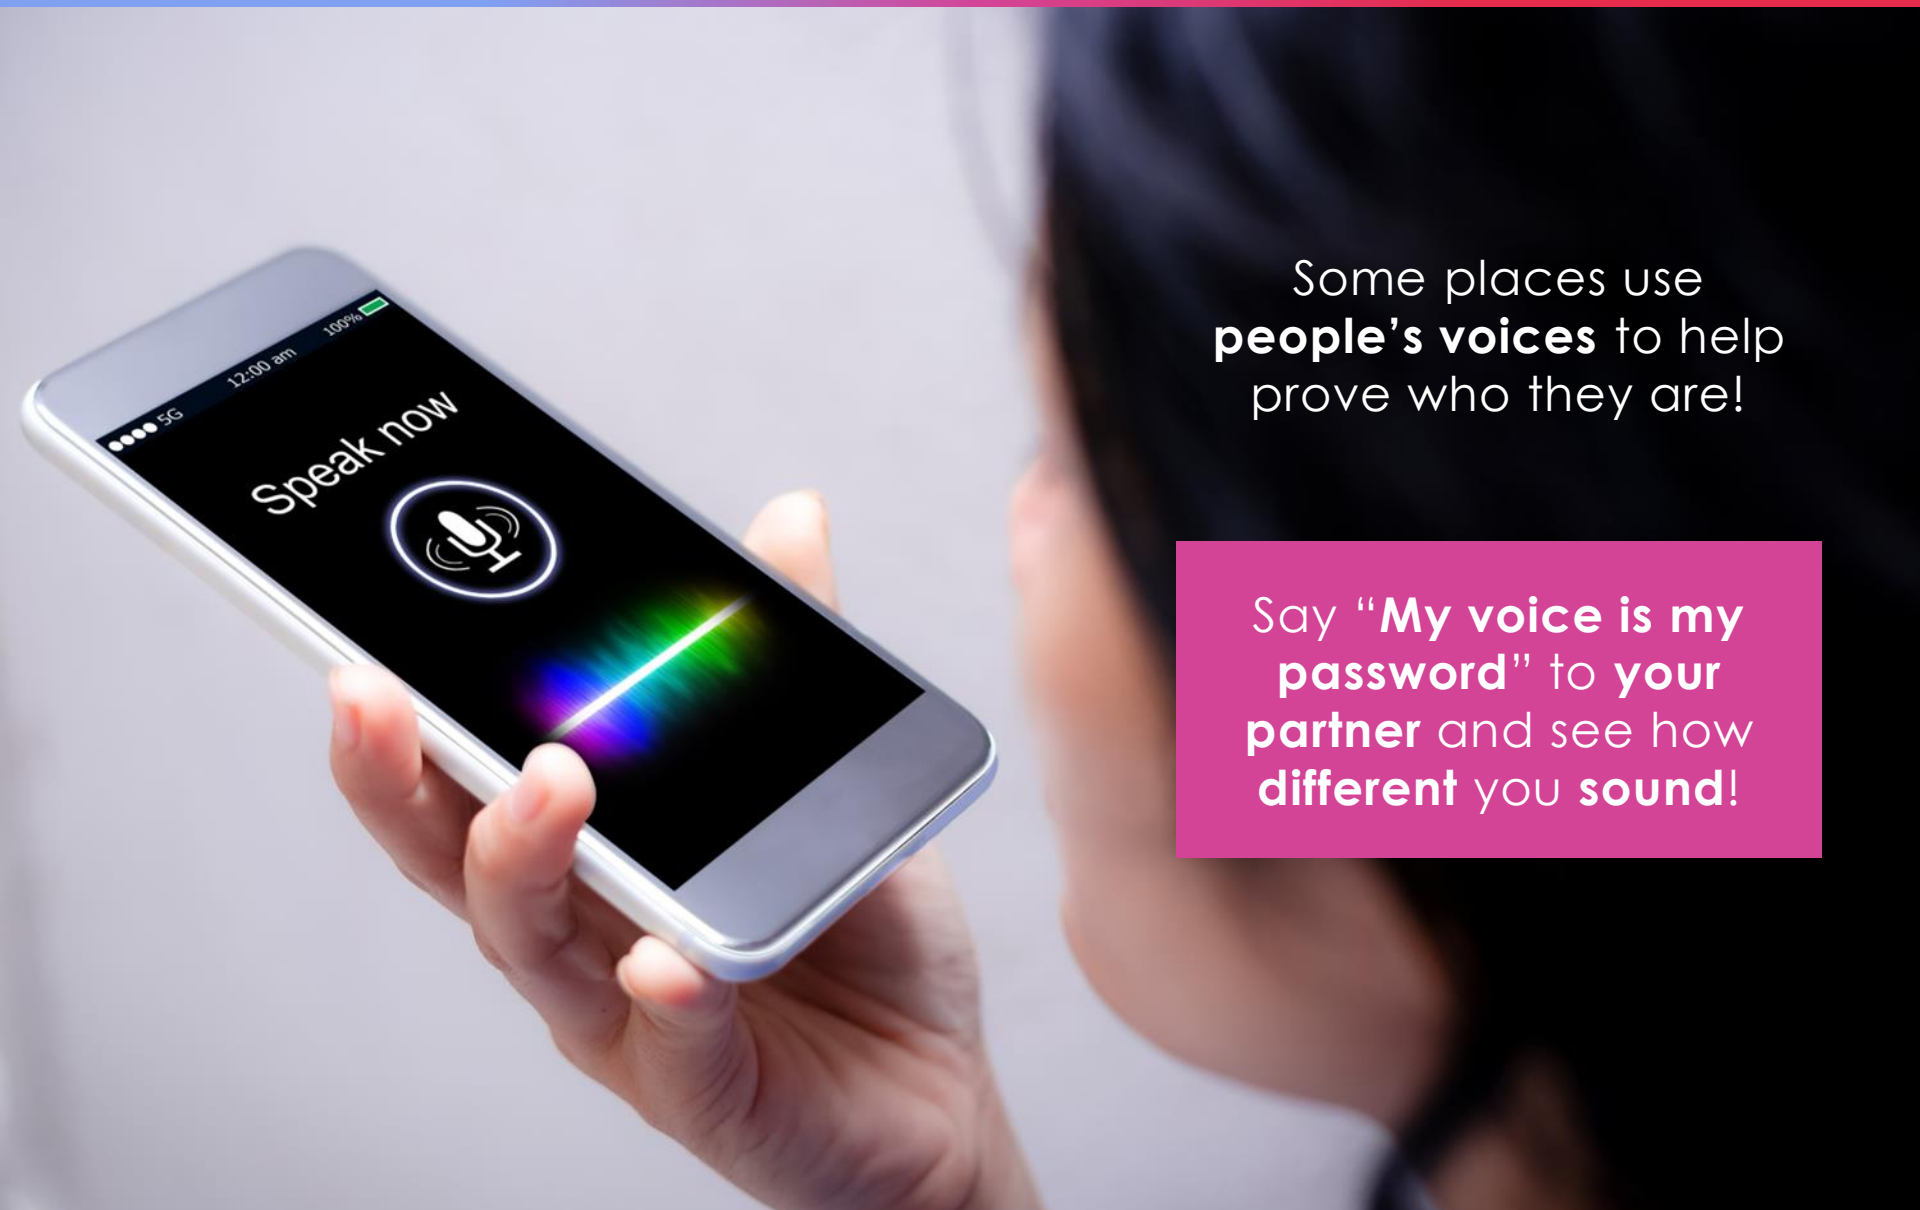

Unique:

When there is **only one** of something.

Look at your partner's eyes to see the **patterns** in the centre.

5 I've got the key

Some places use **people's voices** to help prove who they are!

Say "**My voice is my password**" to **your partner** and see how **different** you **sound**!

Now it's time to think about whether YOU know how to keep your information safe. Think about...

Sharing personal information

Meeting people online

Keeping passwords safe

Individual activity (3-4 mins)

On the next page, you'll be voting yes or no on your VoteTopic question. **Follow the instructions** to create a **pictogram** showing what your class thinks...

Do you know how to keep your information safe?

Your teacher will **draw this pictogram** on a whiteboard. Just follow the instructions to **vote** and **create the pictogram!**

Now's your chance to vote on: "Do you know how to keep your information safe?"

Yes

I find it easy to spot when someone is asking me for too much information.

I can make a good password and keep it safe from other people.

I understand when I have to be careful about sharing information.

I find it tricky. Some people online just want to make friends!

I find it really hard to make good passwords that I can remember.

I don't know when it is dangerous to share your information.

No

We will be sharing your thoughts on this topic with the Metropolitan Police, Nominet, Safer Internet Centre, Lloyds Bank and GCHQ.
