THIS WEEK'S BIG QUESTIONS

Would you like more wildlife in your towns and cities?

- How many plants or animals do you see in your local town or city?
- How could more wildlife help people in towns and cities?
- What changes would you like to see in your town or city?

Would you like to see more wildlife in your towns and cities?

WHAT OTHERS ARE SAYING

- *"It is surely our responsibility to do everything in our power to create the planet that provides a home not just for us, but all life on Earth." - Sir David Attenborough, Broadcaster & Biologist.*
- *"We've all been reminded of how important access to nature is, which is why I'm committed to creating greener, more liveable communities." - Andy Burnham, Mayor of Greater Manchester.*

A CLOSER LOOK: BUDGET BALCONY GARDENS

You might be thinking about how you can increase plant life in your area, but this can be tricky if you only have a small space available to you. Here are some top tips on how you can grow greenery on a budget.

Firstly, get creative with containers. Cut a plastic bottle in half and you've made two great planters - just make sure you poke a few holes in the bottom for drainage. Empty yoghurt pots? Don't throw them away! These could be fantastic for growing seeds. Got some old shoes which are about to be thrown out? Fill them with soil and pop a plant in there. Then, put it on your windowsill.

Of course, you'll need something to plant. Wildflowers like bluebells and poppies can provide seeds for free on streets near you. If you want to grow some food, you can recycle the off-cuts from celery, onions and potatoes. Just plant them in your new pots and watch them grow!

YOUR GUIDED READING QUESTIONS

- Explain what the word "budget" means.
- How can you make a planter from a plastic bottle?
- Which other items could be turned into planters?
- Name two wildflowers that provide seeds.
- Which vegetables can be grown from off-cuts?

THIS WEEK'S OTHER NEWS STORIES

Post Office Horizon trial continues

Alan Bates, who pushed for justice for postmasters, spent seven hours giving evidence in the court case about the Post Office scandal. As part of his evidence, he said he believes the Post Office should be sold.

A changing climate...

The European Court of Human Rights has decided that the Swiss Government have not done enough to tackle climate change, and that this has affected the human rights of people there. The ruling is likely to be the first of many more.

France's fast fashion hung out to dry

France has become the first country in the world to officially place limits on ultra fast fashion. Politicians in France's Parliament voted for several new rules, including an extra "environmental charge" added to low-cost clothes.

Hardest Geezer defies all odds

Russ Cook, from East Sussex, has become the first person to run from the tip of southern Africa to the tip of northern Africa. He covered 9,940 miles in 352 days, taking in 16 countries. He has raised over £600,000 for charity.

SPECIAL REPORT: ANIMAL NEWS

A secret plant takes root...

Chester Zoo has announced the success of a secret mission: somewhere on an unnamed cliff face in North Wales, they have planted 30 highly endangered cotoneaster cambricus. They grow nowhere else in the world!

Tiger, tiger burning bright?

Scientists in Indonesia are seeking more proof that the Javan tiger is not extinct after all... A study published in March explained that a strand of tiger hair found in 2019 matched some of the Javan tiger's characteristics.

Beavering away!

Beachgoers in Sandwich, Kent, got a surprise when they found a beaver washed up on the beach. The animal is said to be making a good recovery after being picked up by the RSPCA. Click the image for some footage!

Who bugs you?

The Guardian newspaper has launched a new competition: Invertebrate of the Year 2024! The aim of the competition is to raise awareness of the threats facing these creatures, which make up 95% of species on Earth.
