# This week you're discussing: "Are you resilient when things don't go to plan?"

Yes

I know that resilience about being able to bounce back after challenging times.

I often take a break and speak positively to myself when things don't go to plan.

Though I feel disappointed and upset when things don't go to plan, I know that I'm building resilience.

I know what resilience is, but I'm still learning how to be resilient in challenging times.

I could take a break and speak positively to myself more often when things don't go to plan.

I find it hard to cope with the disappointment and upset that happens when things don't go to plan.
